# IMPORTANT BOOKING INFORMATION

## KIMBERLEY EXPEDITION CRUISING

Thank you for booking your holiday on the Kimberley Coast with APT. You will be embarking on an exciting adventure to a unique and remote part of the world. To prepare for your visit, please read the following important booking information.

### Passports

Passports are required for all guests who travel on our luxury Kimberley coast cruises. Please check the expiry of your passport to ensure that it has 6 months validity from the date of disembarkation.

### Health, Fitness and Mobility

To ensure a comfortable and enjoyable experience, we recommend selecting a tour that aligns with your fitness and mobility levels, and to seek your doctor's advice. APT's Expedition and Coastal Cruises require a good level of fitness, however the fitness level required does vary between tours and travel styles. Walking tours may involve uneven surfaces, steps, steep inclines and periods of standing. Guests must be able to embark and disembark vehicles and vessels unaided. Crew and guides are unable to assist passengers on and off ships and coaches due to occupational health and safety. On Expedition and Coastal cruises, you may be required to embark or disembark zodiac or tender boats, which involves climbing ramps and steps. Detailed activity and fitness level information for your chosen tour is available upon request. Please inform your travel consultant of any medical conditions that may affect your participation, and complete a Health, Fitness and Mobility Declaration if required.

### Allergies and Dietary Requirements

APT requires passengers to advise of any dietary requirements at the time of booking. While APT will pass on requests to the relevant suppliers, accommodation of dietary needs cannot be guaranteed. Passengers may be required to fill out forms relating to their allergies for third-party suppliers.

### Sea Sickness

As on any sea vessel, some noticeable motion may be anticipated in certain areas, dependent on weather and season. While most ships are fitted with stabilisers to reduce 70% of the roll, it is recommended that you bring motion sickness medication just in case, even if you have never experienced motion sickness in the past. Should you require sea sickness tablets on board, these are generally available from the ship's reception. Sea bands have been clinically tested to reduce nausea caused by sea sickness. A sea band is a knitted elasticated wrist band, which operates by applying pressure on the acupressure point on each wrist by means of a plastic stud. Sea bands can be worn on each wrist whenever you feel nauseous and are sold in most major pharmacies.

### Flight Details and Transfers

Before booking your flights, please check your invoice for your first and last day tour times, to ensure you allow enough time to participate in any touring/inclusions. If in doubt, please ask your travel consultant. Pre- and post-tour accommodation may also be booked if desired. Transfers must be arranged at the time of booking and flight details need to be provided to confirm this service. If booking pre- or post-tour accommodation with APT, you will receive a transfer from the

airport to your accommodation upon arrival and a transfer from your accommodation to the airport after your cruise.

### Travel Insurance

We strongly recommend that you take out comprehensive travel insurance, ensuring that your policy will cover you for medical costs, including remote medical evacuation, loss of luggage, land and air charges which may occur due to cancellation, natural disasters or strike before you depart. Please confirm that your insurance covers you for the whole time you'll be away and check what circumstances and activities are not included in your policy. Ensure all pre-existing medical issues are declared to the insurer so that non-covered conditions are ascertained in advance. Have the details recorded and accessible at all times during travel.

### Documentation

Documents will be dispatched approximately two to three weeks before departure, provided full payment has been received and all required including full passport details, has been submitted via Tour Personaliser or through our Reservations department. Please note that Seabourn will not release their travel documentation until online check in has been completed on their website.

### Luggage

Each passenger is entitled to take one piece of luggage that does not exceed 160cm in total length, width and height, or weigh more than 20kg. Please limit your hand luggage to one bag with a maximum weight of 7kg. If combining your Expedition Cruise with a 4WD tour, strict restrictions apply. Please refer to your 4WD Important Booking Information for further details. Please note, airline restrictions may also apply.

### Additional Information on Seabourn

#### Seabourn Booking Reference

Relevant booking references will be issued by Seabourn approximately 90 days prior to departure and will be communicated to passengers by APT.

#### Seabourn Online Check-In

All passengers will be required to complete an online check-in via the Seabourn website using their Seabourn Booking reference. This process includes a medical declaration. Any changes to medical conditions following the completion of an online check-in and prior to embarkation must be notified to APT in writing.

#### Seabourn Optional Activity – Mitchell Falls Helicopter Flight

Passengers who are interested in purchasing the optional Mitchell Falls Helicopter flight at their own expense will need to book direct on Seabourn's website once their Seabourn booking number has been issued.
